

EnviroCheck

290 Hybrid Media

Product Description

Galaxy EnviroCheck 290 Hybrid Media is a 10 Mil, PVC-free display film, for a variety of sign and display applications. It is a 'stay flat' product, with a smooth, anti-glare, satin finish for producing high-quality prints.

The **PVC-free** composition is an excellent environmental choice for brands looking for a sustainable way to visually communicate.

Ink Compatibility:
