

Magnetic Business Card Holder

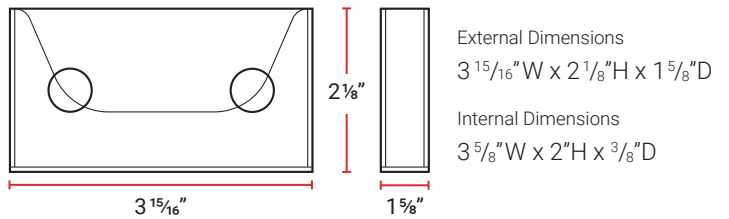

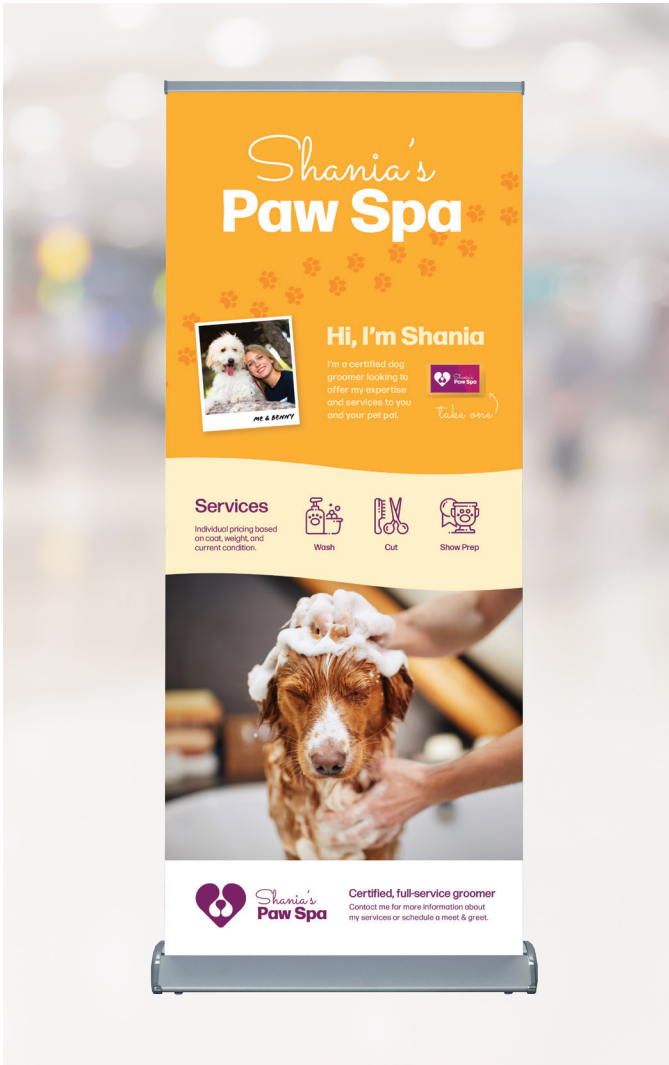

BANNER STAND ACCESSORY

Maximize your marketing impact with our sleek business card size literature holder that seamlessly attaches to your banner stand.

Ensure your contact information or promotional materials are easily accessible and prominently displayed to capture the attention of potential clients.

The acrylic business card holder offers a low-profile design ideal for showcasing a set of business cards or similar sized literature. Two powerful magnets are included to attach the acrylic holder anywhere on the printed banner.

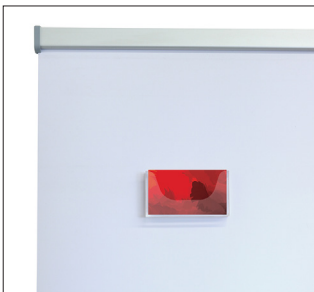

The lightweight construction of the literature holder ensures minimal impact on the banner's lean; however, we advise against mounting too high to ensure literature remains accessible. Integrating an outline of the literature holder in the design of the print can help guarantee it is positioned in the same place every time the banner stand is assembled.

- Lightweight, transparent acrylic business card holder
- Display business cards directly on a printed banner
- Attaches with two powerful magnets (included)
- Can hold approximately 25 business cards*

* 14pt / no coating / standard business cards ($3 \frac{1}{2}$ " W x 2" H)
